

To whom it may concern

Mr. **Pratik Pingale**, a student pursuing **Bachelors of Technology(CS)** from **AISSMS Pune**, has undergone an internship program in our organisation for a period of seven months. The time period for the internship program was between **September 2021 - April 2022**, where he worked on Major and Minor projects as part of the **Back-End Intern**. I was the mentor & POC and hence monitored his performance thoroughly.

Pratik Pingale was found to be meticulous and precise in his working style, prompt with deadlines, and professional in the output. He was a quick learner and displayed the ability to work well individually. He displayed both the ability and patience to perform adequate research and quickly grasp the intricacies of tools and concepts to use during the course of the project. He gave off a very good impression with respect to both his personal behaviour, interpersonal skills, technical skills, and overall efficiency to collaborate and finish the task at hand.

In conclusion, Pratik Pingale is a well-rounded candidate who is an asset for any team he becomes a part of. Hence, he receives our strongest recommendation for his suitability as a student/employee in any institution/organisation that he will be a part of in the future.
