Skills

Programming & Frameworks Languages: C#, TypeScript, Python, Kotlin, C/C++. Frameworks: .NET, gRPC, Angular, Django
Cloud, DevOps & Databases Microsoft Azure (App Service, Key Vault, Functions), CI/CD, Kubernetes, Helm, PostgreSQL, NATS, Redis
Architecture & Practices Microservices Architecture, REST API Design, Unit & Integration Testing, SDLA Compliance, SAFe Agile

Professional Experience

Emerson

Pune, India

SOFTWARE DEVELOPMENT ENGINEER

Feb 2023 - Current

- Designed and maintained cloud-native backend services in a microservices architecture using C#/.NET patterns, supporting global product delivery within a SAFe agile release model.
- Built and optimized service-to-service integrations using gRPC/REST-style APIs with on-prem data caching and async workers, cutting data fetching latency by ~93% (5000ms to 350ms) and reducing database read-load by ~60%.
- Contributed to the MVP release of a cloud migration replacing a legacy on-prem tool, supporting roadmap targets of 1,000+ global sites through close collaboration with developers, architects, testers, and product stakeholders.
- Improved engineering quality by leading code-review improvements and AI-assisted developer enablement, reducing average review cycle time by ~25% (48h to 36h) and increasing merged-PR throughput by ~30%.
- Raised system reliability by increasing unit and integration test coverage from 38% to 54% and enforcing CI/CD automated smoke tests in Azure DevOps pipelines, resulting in a 62% reduction in monthly SEV incidents (13 to 5).
- Optimized Kubernetes deployments through resource tuning, Horizontal Pod Autoscaling (HPA), and Prometheus monitoring, lowering CPU usage per pod by 48%, increasing throughput by 2.5x (up to 500 requests/sec), and reducing cloud infra spend by ~32%.
- Strengthened secure-design and delivery practices by authoring threat models, SDLA-compliant design documents, and security checklists that ensured zero critical security findings across multiple releases.

Convin.ai

Pune, India

BACKEND ENGINEER AND ANDROID DEVELOPER

Sept 2021 - Apr 2022

- Redesigned backend ingestion services using Django REST APIs, asynchronous workers, and PostgreSQL indexing, increasing throughput to ~1,500 calls/day and reducing end-to-end latency by ~40%.
- Automated language detection for 98% of calls by integrating Amazon Transcribe with custom NLP heuristics, improving transcript quality to ~85% and reducing manual corrections by ~60%.
- Developed a production-ready enterprise Android application featuring secure call recording and resumable background synchronization.
- Achieved successful recording uploads within 5 minutes for ~90% of sessions, reducing manual audio transfer requirements by ~75%.
- Collaborated with a 13-person cross-functional team on CI/CD pipelines, requirement refinement, client onboarding, and feature prioritization, delivering a centralized call-review integration for a 30-person management team. (Letter of Recommendation) 📄.

Projects

Dependency Analysis Reporting Tool 📄

Mar 2026 - Current

- An AI-assisted dependency analysis platform using GitHub Copilot to automate Open Source compliance validation across enterprise repositories, integrating Black Duck and Azure DevOps APIs for vulnerability scanning, and intelligent package recommendations.

ADO Code Review 📄

Oct 2025 - Current

- An AI-powered Azure DevOps PR code review automation using GitHub Copilot to generate intelligent inline comments with multi-language support, improving review efficiency and code quality.

Display Forge

Feb 2024 - June 2025

- An AI-powered industrial HMI generation platform using Azure OpenAI GPT-4o that automatically transforms customer inputs into ISA-101 compliant, DeltaV Live importable graphics with mandatory human-review gates for safety-critical systems.

Education

AISSMS College of Engineering

Pune, India

BACHELOR OF TECHNOLOGY IN COMPUTER ENGINEERING

Aug 2019 - Aug 2023

- Graduated with Honours in Data Science and Machine Learning.

9.38 CGPA

Achievements

2025	Certificate Microsoft Certified: Azure Fundamentals (AZ-900) 📄	Pune, India
2024-26	Certificate Recognition for Outstanding Contribution	Pune, India
2024	Winner Emerson 2024: Capture The Flag (Hack The Box)	Global
2022	White paper Anatomy of the Dark Web's Network Structure to Detect Illicit websites 📄	India
