Skills

Programming Languages: C#, C/C++, TypeScript, Python, Kotlin. **Frameworks:** .NET ecosystem, gRPC, Angular, Django
Cloud, DevOps & Databases Microsoft Azure, AWS, Google Cloud, Kubernetes, Helm, CI/CD, PostgreSQL, Redis, RabbitMQ, NATS
Practices & Tools Object-Oriented Design, Data Structures & Algorithms, Code Reviews, Technical Documentation, SAFe Agile

Professional Experience

Emerson

Pune, India

SOFTWARE DEVELOPMENT ENGINEER (CLOUD-CONNECTED APPLICATIONS)

Feb 2023 - Current

- Participated in design, implementation, testing, and maintenance of cloud-connected engineering applications, contributing to the MVP cloud migration from a legacy on-prem tool and supporting roadmap targets across 1,000+ global sites.
- Re-architected data workflows into **gRPC** services with on-prem caching and asynchronous workers, reducing fetch latency by **~93% (5000ms to 350ms)** and lowering database read-load by **~60%** in event-driven service flows.
- Improved software quality and maintainability through structured code reviews and team-wide **AI-assisted** development practices (**GitHub Copilot**), reducing review cycle time by **~25% (48h to 36h)** and increasing merged-PR throughput by **~30%**.
- Enhanced production reliability by raising unit and integration test coverage from **38% to 54%** and enforcing CI/CD smoke tests, resulting in a **62%** reduction in monthly SEV incidents (**13 to 5**).
- Optimized Azure/AWS-hosted Kubernetes workloads using resource tuning, Horizontal Pod Autoscaling, and Prometheus monitoring, cutting CPU per pod by **48%**, increasing throughput by **2.5x**, and reducing cloud cost by **~32%**.
- Authored design documentation, threat models, and SDLA-aligned engineering checklists that drove secure, maintainable releases with **zero critical security findings**.

Convin.ai

Pune, India

BACKEND ENGINEER AND ANDROID DEVELOPER

Sept 2021 - Apr 2022

- Implemented and maintained backend services using Django REST, asynchronous workers, and PostgreSQL indexing, increasing throughput to **~1,500** calls/day and reducing end-to-end latency by **~40%**.
- Debugged and improved data-processing quality by automating language detection for **98%** of calls through Amazon Transcribe and custom NLP heuristics, improving transcript quality to **~85%**.
- Built a production enterprise client application (Kotlin) with secure call recording and resumable background synchronization to support reliable user workflows in low-connectivity conditions.
- Improved sync reliability by achieving successful recording uploads within 5 minutes for **~90%** of sessions, reducing manual audio transfer requirements by **~75%**.
- Collaborated in a 13-member Agile team on CI/CD pipelines, feature planning, and client onboarding, delivering a centralized call-review integration for a 30-person management team. (Letter of Recommendation) 📄.

Projects

Dependency Analysis Reporting Tool 📄

Mar 2026 - Current

- An **AI-assisted** dependency analysis platform using **GitHub Copilot** to automate Open Source compliance validation across enterprise repositories, integrating **Black Duck** and **Azure DevOps APIs** for vulnerability scanning, and intelligent package recommendations.

ADO Code Review 📄

Oct 2025 - Current

- An **AI-powered** Azure DevOps PR code review automation using **GitHub Copilot** to generate intelligent inline comments with multi-language support, improving review efficiency and code quality.

Display Forge

Feb 2024 - June 2025

- An **AI-powered** industrial HMI generation platform using **Azure OpenAI GPT-4o** that transforms customer inputs into ISA-101 compliant, DeltaV Live importable graphics with mandatory human-review gates for safety-critical engineering workflows.

Education

AISSMS College of Engineering

Pune, India

BACHELOR OF TECHNOLOGY IN COMPUTER ENGINEERING

Aug 2019 - Aug 2023

- Graduated with *Honours in Data Science and Machine Learning*.

9.38 CGPA

Achievements

2025	Certificate	Microsoft Certified: Azure Fundamentals (AZ-900) 📄	Pune, India
2024-26	Certificate	Recognition for Outstanding Contribution	Pune, India
2024	Winner	Emerson 2024: Capture The Flag (Hack The Box)	Global
2022	White paper	Anatomy of the Dark Web's Network Structure to Detect Illicit websites 📄	India
