Summary

Software engineer focused on C#/.NET backend and cloud-native systems, with hands-on experience building scalable microservices, integration layers, and enterprise platforms on Azure and Kubernetes. Strong track record in performance optimization, asynchronous/distributed workflows, API reliability, and secure SDLC practices, with measurable impact across latency, throughput, and delivery velocity in Agile teams.

Skills

Programming Languages: C#, C/C++, TypeScript, Python, SQL, Kotlin. **Frameworks:** .NET 6+, Web API, gRPC, React, Angular, Django
Cloud & DevOps Microsoft Azure & DevOps, AWS, GCP, Kubernetes, Docker, Helm, CI/CD, PostgreSQL, Redis, RabbitMQ, NATS, Prometheus
Practices & Tools Microservices Architecture, Async Processing, REST API Design, Performance Tuning, Unit & Integration Testing, Code Reviews, SDLA Compliance, SAgile, Threat Modeling, Git

Professional Experience

Emerson

Pune, India

SOFTWARE DEVELOPMENT ENGINEER (BACKEND & CLOUD)

Feb 2023 - Current

- Contributed to a cloud modernization MVP replacing a legacy on-prem platform with cloud-ready backend services, supporting roadmap targets of 1,000+ global sites through feature delivery and cross-team execution.
- Re-architected data workflows into **gRPC** microservices with on-prem caching and asynchronous workers, cutting data-fetch latency by **~93% (5000ms to 350ms)** and reducing database read-load by **~60%**.
- Optimized Kubernetes workloads via resource profiling/tuning, Horizontal Pod Autoscaling (HPA), and Prometheus observability, lowering CPU usage per pod by **48%**, increasing throughput by **2.5x (up to 15000 requests/sec)**, and reducing cloud spend by **~32%**.
- Improved reliability by increasing unit/integration coverage from **38% to 54%** and enforcing CI/CD smoke-test gates, reducing monthly SEV incidents by **62% (13 to 5)**.
- Strengthened engineering quality by leading code-review excellence initiatives and internal **GitHub Copilot** adoption, reducing average review cycle time by **~25% (48h to 36h)** and increasing merged-PR throughput by **~30%**.
- Authored threat models, SDLA-compliant design artifacts, and release checklists that maintained **zero critical security findings** across multiple releases.

Convin.ai

Pune, India

BACKEND ENGINEER AND ANDROID DEVELOPER

Sept 2021 - Apr 2022

- Redesigned backend ingestion pipelines using Django REST APIs, asynchronous workers, and PostgreSQL indexing, increasing throughput to **~1,500 calls/day** and reducing end-to-end latency by **~40%**.
- Automated language detection for **98%** of calls by integrating Amazon Transcribe with custom NLP heuristics, improving transcript quality to **~85%** and reducing manual corrections by **~60%**.
- Built resilient mobile-to-backend synchronization workflows with secure recording uploads, achieving successful transfers within 5 minutes for **~90%** of sessions and reducing manual audio transfer by **~75%**.
- Collaborated in a 13-member Agile team on CI/CD pipelines, onboarding, and feature prioritization, delivering a centralized call-review integration for a 30-person management team. (Letter of Recommendation) 📄.

Projects

Dependency Analysis Reporting Tool 📄

Mar 2026 - Current

- Built an **AI-assisted** engineering platform to automate open-source compliance checks across enterprise repositories, integrating **Black Duck** and **Azure DevOps APIs** for vulnerability scanning and recommendation workflows.

ADO Code Review 📄

Oct 2025 - Current

- Developed an **AI-powered** Azure DevOps PR review automation tool using **GitHub Copilot** to generate inline comments with multi-language support, improving review efficiency and code quality consistency.

Display Forge

Feb 2024 - June 2025

- Engineered an **AI-powered** industrial HMI generation platform using **Azure OpenAI GPT-4o** to transform customer inputs into ISA-101-compliant, DeltaV Live-importable graphics with mandatory human-review gates for safety-critical systems.

Education

AISSMS College of Engineering

Pune, India

BACHELOR OF TECHNOLOGY IN COMPUTER ENGINEERING

Aug 2019 - Aug 2023

- Graduated with *Honours in Data Science and Machine Learning*.

9.38 CGPA

Achievements

2025 **Certificate** Microsoft Certified: Azure Fundamentals (AZ-900) 📄

Pune, India

2022 **White paper** Anatomy of the Dark Web's Network Structure to Detect Illicit websites 📄

India
