Skills

Programming Languages: C#, TypeScript, Python, Kotlin, C/C++. **Frameworks:** ASP.NET Core, Angular, gRPC, Django REST
Cloud, DevOps & Databases: AWS, Azure, Google Cloud, Kubernetes, Helm, CI/CD, Azure DevOps, PostgreSQL, RabbitMQ, NATS, Redis
Practices & Tools: Agile (SAFe), API-first microservices, Unit & Integration Testing, Git, Linux, Threat Modeling, SDLA Compliance

Professional Experience

Emerson

Pune, India

FULL-STACK SOFTWARE ENGINEER (.NET)

Feb 2023 - Current

- Built and delivered production-grade backend services for a cloud migration initiative (legacy on-prem to cloud) using C#/.NET and gRPC service contracts, supporting roadmap targets of 1,000+ global sites through cross-team engineering execution.
- Re-architected data workflows into API-first **gRPC** microservices with on-prem cache layers and asynchronous workers, cutting data-fetch latency by **~93% (5000ms to 350ms)** and reducing database read load by **~60%**.
- Optimized containerized workloads on Kubernetes via resource tuning, Horizontal Pod Autoscaling (HPA), and Prometheus monitoring, lowering CPU usage per pod by **48%**, increasing throughput by **2.5x (up to 500 requests/sec)**, and reducing cloud infra spend by **~32%**.
- Improved release quality by increasing unit and integration test coverage from **38% to 54%** and enforcing CI/CD smoke-test gates, resulting in a **62%** reduction in monthly SEV incidents (**13 to 5**).
- Led rollout of **GitHub Copilot** across engineering teams, reducing average code-review cycle time by **~25% (48h to 36h)** and increasing merged PR throughput by **~30%**.
- Strengthened secure-design and delivery by authoring threat models, SDLA-compliant design docs, and security checklists, sustaining **zero critical security findings** across multiple releases.

Convin.ai

Pune, India

BACKEND ENGINEER (DJANGO REST) AND ANDROID DEVELOPER

Sept 2021 - Apr 2022

- Redesigned backend ingestion pipelines using Django REST APIs, asynchronous workers, and PostgreSQL indexing, increasing throughput to **~1,500 calls/day** and reducing end-to-end latency by **~40%**.
- Automated language detection for **98%** of calls by integrating Amazon Transcribe with custom NLP heuristics, improving transcript quality to **~85%** and reducing manual corrections by **~60%**.
- Developed a production-ready enterprise Android application (Kotlin) featuring secure call recording and resumable background synchronization.
- Achieved successful recording uploads within 5 minutes for **~90%** of sessions, reducing manual audio transfer requirements by **~75%**.
- Worked in a 13-person Agile team on CI/CD pipelines, client onboarding, and feature prioritization, delivering a centralized call-review integration for a 30-person management team. (Letter of Recommendation) 📄.

Projects

Dependency Analysis Reporting Tool 📄

Mar 2026 - Current

- An **AI-assisted** dependency analysis platform using **GitHub Copilot** to automate Open Source compliance validation across enterprise repositories, integrating **Black Duck** and **Azure DevOps APIs** for vulnerability scanning, and intelligent package recommendations.

ADO Code Review 📄

Oct 2025 - Current

- An **AI-powered** Azure DevOps PR code review automation using **GitHub Copilot** to generate intelligent inline comments with multi-language support, improving review efficiency and code quality.

Display Forge

Feb 2024 - June 2025

- An **AI-powered** industrial HMI generation platform using **Azure OpenAI GPT-4o** that automatically transforms customer inputs into ISA-101 compliant, DeltaV Live importable graphics with mandatory human-review gates for safety-critical systems.

Education

AISSMS College of Engineering

Pune, India

BACHELOR OF TECHNOLOGY IN COMPUTER ENGINEERING

Aug 2019 - Aug 2023

- Graduated with *Honours* in *Data Science and Machine Learning*.

9.38 CGPA

Achievements

2025	Certificate Microsoft Certified: Azure Fundamentals (AZ-900) 📄	Pune, India
2024-26	Certificate Recognition for Outstanding Contribution	Pune, India
2024	Winner Emerson 2024: Capture The Flag (Hack The Box)	Global
2022	White paper Anatomy of the Dark Web's Network Structure to Detect Illicit websites 📄	India
2020	Winner Internal Hackathon Winner (Smart India Hackathon Track)	India
